(a) Three-dimensional view
(b) Voltage-voltage projection
(c) First voltage-current projection
(d) Second voltage-current projection
e_{i_L} (A)
$e_{v_{C_1}}$ (V)
$e_{v_{C_2}}$ (V)
$\beta = 0.25$
$\beta = 0.5$
$\beta = 1$
Cycle starts
Initial error, $k = 0$
